HOTFLASHERS: PRESIDENT SAYS GET OUT SUMMER WHITE SALE HOLILEAF BEFORE FALL....SUMMER WHITE SALE BEGINS TO CATCH ON..AUGUST WORK DAY SCHEDULED BY SCHARF...RUSH IS ON TO GET NESTS ON HOLIHUTS DEVELOPMENT BEFORE SNOW...ONE MONTH LEFT FOR WHITE SALE...

JERRY SCHARF SHINES

On August 19th Jerry is scheduling another work day. This time paint rollers, axes and hatchets will be mainly needed. Come prepared to paint ceiling of Chalet, clear brush from access road and any other little nities Jerry, Art and Al Boylan can think up for us.

On July 8th was a great day at HoliMont. A head count at one time went to thirty eight, counting babes in arms along with the others. Earl Watson family and friends took on the job of painting our chairs assisted by Barb Schlossel, Lois Hough, Kay Vaughan, Jean Abel, Connie Matla, and others. Bob Vaughan somehow got the truck driver job and carried Earl Abel, Ernie and Norm Brunton, Les Krampitz, Beth Mc Hugh plus cement and tools for the Tower grouting job. Gary Richards and J. Scharf did some landscaping on Tee Bar, Art Beck with chain saw started the road brush clearing assisted by Scott Hansen and Les Krampitz and yours truly. George Schlossell and Ron Matla proved an education comes in handy. They spent the afternoon surveying like professionals, and everybody knows how hard surveyors work.

Let's make the 19th another productive day for HoliMont beginning at 10 A. M. until the evening picnic. Suggestion for wives and children: Arcade/Attica Steam railroad trip thirty minutes from HoliMont or an afternoon at Fentier Village Salamanca about 12 miles away. Kids love it.

MEMBERSHIP WHITE SALE

'Leaf is sad to report that this is the first issue this past year in which we could not report a new member. But things are looking up!

Verne Fitzgerald of Rochester, who you would think was in the chalet business since he has two, though neither of them are up yet, promises a month-of-August-White-Sale-Member. Ted Tarbell has his sights zeroed in on a very likely prospect. Ernie Brunton our only working day Canadian says he has a couple likely prospects.

So Membership reports to President that everything is fine.. to which he growls, "'Get Out A 'Leaf! I talked with two members who did not understand what the White Sale was."
"O.K. Chief" says Membership, "Just Stop Growling".

Herewith explanation of Summer White Sale: Any new member signed up in July and August will have 67 - 68 dues excused, provideing full fee of \$875 is paid in cash.

Now that's a real bargain when an investment of \$ 875 has an immediate return of \$ 150. And everybbody knows that even our annual dues is a much better bargain than a family season pass, so this should be a real attraction to a skiing family.

Membership to Pres.: "How's that, Chief?"

President to Membership Comm: "O. K. but WHERE'S THE MEMBERS?"

Membership: "Well you see Chief, it takes time...."

Pres: "You've had plenty to time. Do you want the new clamps on the Chairs...do you want the new hangars on the Tee Bar, do you want more space in the Chalet.....do you want better parking facilities...do you want decent lunch service in the chalet...do you want a decent road to come in on....listen, Membership, you know what has to be done...now, why aren't you getting in the members?"

Membership: "I dunno know Chief, but I've got a plan that might help. Since you and I are so tired, why don't we appoint area membership chairmen and let them go to work on their particular area. For instance Eⁿie Brunton in Hamilton, Brad Colbert in Toronto, Dick Waterous in Brantford, Don Burg in Buffalo Mrs. Roland Veillette in Niagara Falls, Bob Sankey in Cleveland Fred Emerson Lockport, Paul Sowers Warren, Bruce Walters Jamestown, and anyboy else who will volunteer. You see Chief, if each of these people take responsibility for canvassing their area, we might just come up with those twenty five members you want for the summer."

President: "It is done! Don't forget "EVERY MEMBER A NEW MEMBER"

HOLIHUTS

Now that August has come the rush is on to get up chalets. According to the timetable it looks like Ollie Hazard will be first to break ground. Verne Fitzgerald may not be far behind in fact the same contractor may do both jobs. The contractor may be member Frank Losefske Gowanda, N. Y. Scuttle butt has it that Frank Bonamie and Jack Symonds are breathing hard, and Bob Forsythe has his place staked out, Tommy Gallagher was looking seriously and don't be surprised if several dark horses don't come forward as soon as the road work is done. There are about ten lots that can be dangled in front of your White Sale prospects. Gerry Hilger and Ron Hettich have both always made it up to their chalets on the top road, without four wheel drive, or positraction rear ends but just with chains.

HOLIKIDS

From all reports it would take the new staff of NBC to keep up with the doings of our HoliKids. However, there are a couple things HoliKids could be doing for HoliMont this summer. First make sure your Daddy has sent in the information for the Club roster (one return from last 'Leaf, yours was marked with a red X if it has not been received); Two design a HoliMont flag so we can select the best design and have our own Club Flag, Three Make a plain colored flag for HoliMont two by three feet and suitably bound on edges to stand the stiff breeze we get. Just plain solid bright colors, blue, red, white, any pink or pastel but make sure they are well made to stand up. We will try and get poles for each flag to line the drive and entrance to make a more colorful HoliMont.

A BIT FROM BOYLAN

(From phone conversation with our area Supervisor) The pontoons have been repaired and are expected back soon, new clamps have been ordered for the Chair lift and will be in and on in August, new hangars for Tee have been returned and will be installed along with new assemblies on the telescoping part of the Tee. Towers are being scraped and repainted different colors, Cables have had complete cleanings and run-in thanks to a material developed by Member Bob Forsythe Lubrication consultant, Chairs are painted and touched up by members, grouting has also been done by members, mowing of hill will soon start and landscape work on slopes to control run-off will begin; grading of all the approaches to and from the lifts is planned. We now have a crew of two and sometimes three working and with the help of the members we should be in excellent shape to welcome the season which should be a good one.

HOLILEAVINGS

Shirley Bowers who it turns out was not flying the plane which crashed, is now at a Physio-Therapy Institution undergoing treatment. Plucky gal that she is, we understand that she is studying ground school courses while laid up. Good Luck Shirli!

Dick Freeman and Chuck Groves get orchids for the long trek to E'ville for a meeting that wasn't. At least Chuck got a load of manure out of it. There's still some left Dick if you need any.

One Sunday, visitors to HoliMont thought they were under mortar attack from Charlie. It turned out to be Irv and Essie Germanow learning how to shoot skeet, with guests, up on Fish Hill.

The team of Belgians that pull our hayride got infected with the Spirit of HoliMont, Mama who tips the scales at 2100 gave birth to a mare foal in Hencoop Hollow July 15th and Papa's been fixed.

Now, Rapp, (Bob) is saying that his whole family is just Sweet. Seems while at Vaughan's Adirondack Retreat there were times when the bears had the family trapped. He probably spilled some of his wine on the trail. Bob says the bears never come when the Vaughan family is there. The Vaughans are probably so quiet that the bears don't know they are there.

Doug MacKinnon is working on our Fall Social Calendar and is presently looking for a Chairman for the Hencoop Hollow Hoedown which is the annual barn dance. Any Volunteers? Anybody with any ideas for our Fall Affairs can drop a suggestion to Doug at 39 Spadina Road Toronto, Ontario Canada.

George Davis says Kit is doing some practicing with the big family House-on-Wheels. She takes it shopping, takes the girls out for breakfast, and by the time snow comes, he's afraid that she will be so good she won't need him to go skiing with it. Poor George!

Seven more checks for Al Boylan came in totalling seventy seven skins; all forwarded to Mr. B.

The 'Leaf is probably in Dutch with the President; It was supposed to be all about why we need more members. I figure you know that, but what the ~~devil~~ are we going to do to get them in. I know what's worrying him and I guess you do too. Unless we get in the members our whole program gets bogged down, so let's back the Chief and start the members coming fast.

John Mc Hugh
